2. DATA

For this project we will use:

- The dataset *"Accidents de trànsit amb morts o ferits greus a Catalunya"* wich reports all the traffic incidets reported on Catalonya on the period 2010-2020 with the details about weather conditions, road conditions and number of casualties, the data set can be found on the link "https://analisi.transparenciacatalunya.cat/Transport/Accidents-de-tr-nsit-amb-morts-o-ferits-greus-a-Ca/rmgc-ncpb".
- On addition we'll also use the Leaflet API in order to make an approach to the geographic characteristics of the zones with the biggest amount of accidents.
